STOREX TwinBox 230

The STOREX TwinBox230 is a dual Freeview™ receiver and fully featured Full HD 1080p multimedia player capable of reproducing all high definition video files, slide shows and playlists via its simple and intuitive user interface.

Connect the TwinBox230 to your TV via HDMI 1.3 and enjoy Full HD 1080p picture quality. Record one channel while watching another, or simultaneously record two channels thanks to the TwinBox230's dual Freeview™ receiver. Real-time recordings, programmed recordings, and time-shift recordings are stored on your connected USB keys or external hard drives.

STOREX's TwinBox230 allows you to play virtually all popular formats of Standard and High Definition video files from a USB storage device (USB keys, external hard disks) including H.264, MPEG-2, and XviD HD with full digital 5.1 surround sound in AC3 and DTS (via the HDMI and coaxial outputs).

USB HOST
Connect your USB key or external hard drive to play their multimedia contents on your TV and record Freeview™ channels.

DUAL TUNER
Receive and record Freeview™ channels (live or programmed) on your USB key or external hard drive.

HDMI 1080P
Connect the STOREX TwinBox230 to your HD TV to view your movies and photos, or listen to your music.
