STOREX TwinBox 430

Full HD
1080p

The STOREX TwinBox 430 is a dual Freeview™ receiver and fully featured networked Full HD 1080p multimedia player capable of reproducing all high definition video files, slide shows and playlists via its simple and intuitive user interface.

STOREX's TwinBox 430 allows you to view and record all Freeview™ channels. Realtime recordings, programmed recordings, and time-shift recordings are stored on your connected USB keys or external hard drives. The TwinBox 430 also includes a large variety of internet services such as YouTube, Google Picasa, Weather, RSS news feeds, etc.

STOREX's TwinBox 430 plays virtually all popular formats of Standard and High Definition video files from a USB storage device (USB key, hard disk), from a PC or NAS network (via Ethernet or through the optional USB WiFi N adapter), with full digital 5.1 surround sound in AC3 and DTS (via the HDMI and coaxial outputs).
